

LineGevity Line Striping

DESCRIPTION:

LineGevity products are 100% solids, pigmented, self-leveling materials designed for striping commercial, institutional, and industrial floors. LineGevity products come in many different formulations displaying outstanding mechanical properties, such as impact resistance, abrasion resistance, and adhesion. When incorporating LineGevity striping systems into a LiqueTile flooring system, a customer can expect years of hassle-free, dynamic looking floors in even the most unforgiving environments. Forklifts and skids have finally met their match.

RECOMMENDED USES:

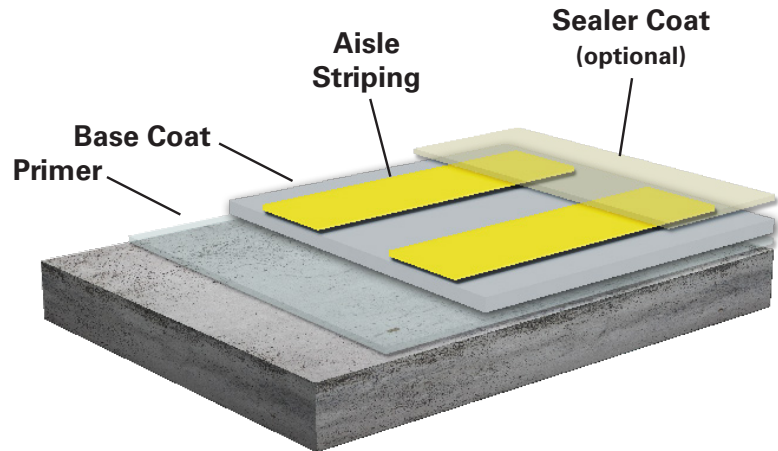

Walkways, forklift parking, USDA/FDA inspected facilities, warehouse organization, shipping & receiving areas.

PACKAGING:

Available in 3 gallon kits and 3 quart kits.

Each kit includes:

- Part A Binder Resin
- Part B Binder Hardener

Available Colors:
