

WOLVERINE COATINGS corporation

One Company, Many Solutions

This penetrating formula travels deep into the concrete pores, sealing the concrete both above and below the surface.

Our asphalt rejuvenator not only makes your asphalt look great, but penetrates it to form a protective Barrier. This barrier protects the asphalt binder (bitumen) from attack by UV, oxidation, water, and chemicals, and will keep your asphalt black for years!

- *Long-Lasting
- *Corrosion Control
- *Abrasion Resistance
- * Leak Prevention

Our aquatic systems are a natural choice for aquatic environments where a smooth, sanitary surface is desired.

Aquarium Linings

Wildlife Habitats

We understand that wildlife environments need to ensure the safety and comfortability for wildlife while providing longevity of the environment.

We offer coatings that are NSF Certified for drinking water applications.

Canals, Aquaducts, Waterways

When it comes to flooring, we bring unique resin technologies and innovative techniques to resolve worries in industrial environments.

Safety Striping

We offer an array of ancillary products, from joint fillers, to patching materials, to polymer mortar technologies that are significantly stronger than concrete.

Repair Material | Concrete Overlays | Dispersions & Colorants | Anti-Corrosives | Adhesives

Concrete Resurfacing

Services

Toll Manufacturing & Private Label Services

Wolverine Coatings Corporation is a strong **toll manufacturer** for you. We have the necessary equipment and personnel to manufacture your products fast! We will make it any way you want and package it any way you want.

We also offer **private label services**, where we formulate a product, provide the materials, equipment, and know-how to produce materials from raw to labelled packages. A high quality product ships from our dock with your label on it.

Our packaging ranges from 4oz. jars all the way to totes or more, depending on your storage and delivery needs.

Custom Formulations & Lab Testing Services

We have state-of-the-art lab equipment, and chemists with years of experience in the coatings industry. We provide custom formulations, along with independent testing services and failure analysis.
